Explanation of terms used	7

This newsletter is addressed primarily to organisations representing patients, consumers and healthcare professionals. It provides a summary of key information relating to medicines for human use published during the previous month by the European Medicines Agency.

Information is selected based on recommendations from consulted patients, consumers and healthcare professionals, and does not necessarily cover all relevant information published by the Agency.

To receive each new issue of the newsletter, please click here [RSS feeds](#), choose '[Human medicines highlights newsletter](#)' and then click on 'Subscribe to this feed'. Please note, in order to be able to view RSS feeds you need one of the following: a modern web browser; a web-based news reader or a desktop news reader. For a list of RSS readers please refer to our [RSS guide](#) and follow the instructions from the selected RSS reader in order to add our newsletter feed.

You can find details on how to [cancel / unsubscribe to an RSS feed](#) on the RSS reader tool that you are using, for example Unsubscribe from an RSS Feed for users of Microsoft Outlook.

For further information on the processing of your personal data, please find EMA's Privacy statement regarding the sending of electronic newsletters click [here](#).

## Information on medicines

### Antivirals/anti-infectives

#### Positive CHMP opinions on new medicines

- [Celldemic](#) (influenza vaccine (surface antigen, inactivated, prepared in cell cultures) )  
Immunisation against the H5N1 subtype of Influenza A virus
- [Incellipan](#) (influenza vaccine (surface antigen, inactivated, prepared in cell cultures))   
Immunisation against influenza in an officially declared pandemic

### Cancer

#### Positive CHMP opinions on new medicines

- [Tizveni](#) (tislelizumab)  
Treatment of locally advanced or metastatic non-small cell lung cancer

#### Key to symbols used

 Orphan medicine    Generic medicine    Biosimilar medicine    Conditional approval    Exceptional circumstances

**Positive CHMP opinions on new medicines**

- [Zynyz](#) (*retifanlimab*)  Treatment of Merkel cell carcinoma, an aggressive, life-threatening skin cancer

**New medicines authorised**

- [Naveruclif](#) (*paclitaxel*)  generic of Abraxane  
Treatment of different types of cancers

**New information on authorised medicines**

- [Carvykti](#) (*ciltacabtagene autoleucel*)   - extension of indication  
Treatment of relapsed and refractory multiple myeloma (cancer of the bone marrow)
- [Keytruda](#) (*pembrolizumab*) - new indication  
Treatment of several types of cancer

**Supply shortages**

- [Eldisine](#) (*vindesine*)  
Treatment of different types of blood cancers, as well as certain solid tumours, such as cancer of the breast, oesophagus (the tube that connects the mouth to the stomach), upper aerodigestive tract (airways of the head and neck) and lungs.

## Dermatology (skin conditions)

---

**Positive CHMP opinions on new medicines**

- [Apremilast Accord](#) (*apremilast*)  generic of Otezla  
Treatment of psoriatic arthritis, psoriasis and Behcet's disease, a rare type of inflammatory disease which affects many parts of the body
- [Pyzchiva](#) (*ustekinumab*)  Treatment of plaque psoriasis, including paediatric plaque psoriasis, psoriatic arthritis, ulcerative colitis and Crohn's disease
- [Zynyz](#) (*retifanlimab*)  Treatment of Merkel cell carcinoma, an aggressive, life-threatening skin cancer

**New information on authorised medicines**

- [Cibingo](#) (*abrocitinib*) - extension of indication  
Treatment of moderate to severe atopic dermatitis (also known as eczema, when the skin is itchy, red and dry)

## Gastro-intestinal system

---

**Positive CHMP opinions on new medicines**

- [Pyzchiva](#) (*ustekinumab*)  Treatment of plaque psoriasis, including paediatric plaque psoriasis, psoriatic arthritis, ulcerative colitis and Crohn's disease

**New medicines authorised**

- [Velsipity](#) (*etrasimod*)  
Treatment of ulcerative colitis (a disease causing inflammation and ulcers in the lining of the bowel)

---

**Key to symbols used**

 Orphan medicine    Generic medicine    Biosimilar medicine    Conditional approval    Exceptional circumstances

## Haematology (blood conditions)

---

### Positive CHMP opinions on new medicines

- [Voydeya](#) (*danicopan*) 

Add-on therapy to ravulizumab or eculizumab for the treatment of residual haemolytic anaemia in adult patients with paroxysmal nocturnal haemoglobinuria, rare genetic disorder and potentially life-threatening blood disease leading to the premature destruction of red blood cells (haemolytic anaemia) by the immune system

### New information on authorised medicines

- [Carvykti](#) (*ciltacabtagene autoleucel*)   - extension of indication  
Treatment of relapsed and refractory multiple myeloma (cancer of the bone marrow)
- [Reblozyl](#) (*luspatercept*) - extension of indication  
Treatment of anaemia (low red blood cell counts)
- [Xromi](#) (*hydroxycarbamide*) - extension of indication  
Treatment of sickle cell disease

## Immune system

---

### Positive CHMP opinions on new medicines

- [Apremilast Accord](#) (*apremilast*)  generic of Otezla  
Treatment of psoriatic arthritis, psoriasis and Behcet's disease, a rare type of inflammatory disease which affects many parts of the body
- [Pyzchiva](#) (*ustekinumab*)   
Treatment of plaque psoriasis, including paediatric plaque psoriasis, psoriatic arthritis, ulcerative colitis and Crohn's disease

### New information on authorised medicines

- [Cibingo](#) (*abrocitinib*) - extension of indication  
Treatment of moderate to severe atopic dermatitis (also known as eczema, when the skin is itchy, red and dry)

## Nephrology (kidney conditions)

---

### Positive CHMP opinions on new medicines

- [Filspari](#) (*sparsentan*)  

Treatment of primary immunoglobulin A nephropathy, a disease where the kidneys gradually stop working and eventually fail, requiring patients to undergo dialysis or have a kidney transplant

## Nervous system

---

### Positive CHMP opinions on new medicines

- [Qalsody](#) (*tofersen*) 

Treatment of a type of amyotrophic lateral sclerosis, a rare and often fatal disease that causes muscles to become weak and leads to paralysis

---

#### Key to symbols used

 Orphan medicine    Generic medicine    Biosimilar medicine    Conditional approval    Exceptional circumstances

## Respiratory system

---

### Positive CHMP opinions on new medicines

- [Nintedanib Accord](#) (*nintedanib*)  
Treatment of idiopathic pulmonary fibrosis, other chronic fibrosing interstitial lung diseases with a progressive phenotype, and systemic sclerosis associated interstitial lung disease
- [Tizveni](#) (*tislelizumab*)  
Treatment of locally advanced or metastatic non-small cell lung cancer

### New information on authorised medicines

- [Kalydeco](#) (*ivacaftor*)- extension of indication /new pharmaceutical form  
Treatment of cystic fibrosis, an inherited disease that has severe effects on the lungs, the digestive system and other organs

### Direct Healthcare Professional Communication (DHPC)

- [Pseudoephedrine-containing medicinal products](#)  
Nasal decongestants for systemic use

## Rheumatology (immune and inflammatory conditions)

---

### Positive CHMP opinions on new medicines

- [Apremilast Accord](#) (*apremilast*)  generic of Otezla  
Treatment of psoriatic arthritis, psoriasis and Behcet's disease, a rare type of inflammatory disease which affects many parts of the body
- [Pyzchiva](#) (*Ustekinumab*)   
Treatment of plaque psoriasis, including paediatric plaque psoriasis, psoriatic arthritis, ulcerative colitis and Crohn's disease

## Vaccines

---

### Positive CHMP opinions on new medicines

- [Celldemic](#) (*influenza vaccine (surface antigen, inactivated, prepared in cell cultures)*)  
Immunisation against the H5N1 subtype of Influenza A virus
- [Incellipan](#) (*influenza vaccine (surface antigen, inactivated, prepared in cell cultures)*)   
Immunisation against influenza in an officially declared pandemic

## Other medicines

---

### Safety update

- [EMA recommends refusal of authorisation for Ibuprofen NVT \(ibuprofen, 400 mg, soft capsules\)](#) - review concluded  
Painkiller and anti-inflammatory medicine

---

### Key to symbols used

 Orphan medicine    Generic medicine    Biosimilar medicine    Conditional approval    Exceptional circumstances

## Medicines under additional monitoring

---

- [Updated list of medicines under additional monitoring](#)

## Other information

---

### Guidelines

---

#### Guidelines open for consultation

- [Concept paper for the development of a reflection paper on a tailored clinical approach in biosimilar development](#)  
Deadline for comments: 30 April 2024
- [Non-clinical and clinical evaluation of antiviral medicinal products and monoclonal antibodies for the prevention and treatment of COVID-19 - Scientific guideline](#)  
Deadline for comments: 30 April 2024
- [Non-inferiority and equivalence comparisons in clinical trials - Scientific guideline](#)  
Deadline for comments: 31 May 2024

#### Adopted guidelines

- [Reflection paper on investigation of pharmacokinetics in the obese population](#)

### Key to symbols used

 Orphan medicine    Generic medicine    Biosimilar medicine    Conditional approval    Exceptional circumstances

## Explanation of terms used

### Orphan medicine

A medicine intended for the treatment of a rare, serious disease. These medicines are granted orphan status during their development; at time of approval, orphan designations are reviewed to determine whether the information available to date allows maintaining the medicine's orphan status.

### Generic medicine

A medicine that is essentially the same as one that has already been authorised for use. (The latter is known as the 'reference medicine')

### Biosimilar medicine

A biological medicine that is similar to another biological medicine which has already been authorised for use. (Biosimilar medicines are also known as 'similar biological' medicines)

### Conditional approval

A medicine that fulfils an unmet medical need may, if its immediate availability is in the interest of public health, be granted a conditional marketing authorisation on the basis of less complete clinical data than are normally required, subject to specific obligations being imposed on the authorisation holder to generate complete data on the medicine.

### Exceptional circumstances

A medicine may be approved in some cases where the applicant cannot provide comprehensive data on the safety or efficacy of the medicine under normal conditions of use, due to exceptional circumstances such as ethical issues or the rarity of the disease concerned. These medicines are subject to specific post-authorisation obligations and monitoring.

### Medicines assessed under Article 58

Article 58 of Regulation (EC) No 726/2004 allows the [CHMP](#) to give opinions, in co-operation with the World Health Organization, on [medicinal products](#) that are intended exclusively for markets outside of the European Union.

### Note on the centralised authorisation procedure

To obtain a single marketing authorisation (licence) for a medicine that is valid in all Member States of the European Union (EU) – via a process known as the 'centralised procedure' – the company or person developing the medicine must submit an application to the European Medicines Agency.

The Agency's Committee for Medicinal Products for Human Use (CHMP) carries out a scientific evaluation of the information contained in the application and prepares an opinion (scientific recommendation). The Agency transmits this (positive or negative) opinion to the European Commission, which then issues a Decision granting or refusing the marketing authorisation.

When the CHMP adopts a positive opinion on a medicine, the Agency publishes on its website a 'summary of opinion', in the first instance, followed by more detailed information in a 'European public assessment report (EPAR)' after the marketing authorisation has been granted.
